Attention Chad Parker, Assistant Admin Telecommunications Program  
Rural Utilities Service, USDA  
Reference: Rural E-Connectivity Program 2020

Dear Chad,

There are so many advantages of living in rural Missouri. The friendly people, the views, the small-town living. But the biggest disadvantage is not being able to access the Internet the way a big city citizen would be able to.

I understand that Total Highspeed is looking to gain funding from the USDA to implement a "Fiber-To-The-Home" (FTTH) project in rural Southwest Missouri. This would greatly benefit our household by allowing options to work from home, my children's schoolwork, movies and entertainment. The Internet is an important part of our daily lives, it has become a necessity.

Please take this letter as a show of support for Total Highspeed to gain funding from the USDA in their endeavors to build "Fiber-To-The-Home" in rural Southwest Missouri.

Sincerely,
